SUMMARY

MCA (AI & ML) graduate with hands-on experience in data analysis, machine learning, Python, and Sql through academic and personal projects. Skilled in data preprocessing, exploratory data analysis (EDA), and visualization techniques for extracting meaningful insights from datasets. Passionate about solving real-world problems using data-driven approaches with strong analytical skills.

PROJECTS

CausalLens

[GitHub](#)

Tech Stack: Python, Machine Learning, Data Analysis

- Created a data analysis project for identifying patterns and relationships in datasets.
- Applied preprocessing and visualization techniques for analytical insights.
- Improved practical understanding of predictive analysis and data workflows.

Customer Churn Prediction

[GitHub](#)

Tech Stack: Python, Pandas, Scikit-learn, Matplotlib

- Built a customer churn analysis project to identify customers likely to leave services.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA).
- Applied machine learning techniques for prediction and trend analysis.

Embroidery Ecommerce Platform

[GitHub](#)

Tech Stack: ReactJS, JavaScript, HTML, CSS

- Built a responsive ecommerce platform for showcasing embroidery products.
- Designed user-friendly interfaces and product management workflows.
- Improved frontend development and business-oriented project understanding.

EDUCATION

2024 - 2026 Master of Computer Applications (AI & ML) at **Chandigarh University** (CGPA: 6.41)
2020 - 2023 Bachelor of Computer Applications at **Tilka Manjhi Bhagalpur University** (66.75%)

SKILLS

Languages	Python, SQL, JavaScript, C++
Data Analytics	EDA, Data Cleaning, Visualization, Statistical Analysis
Machine Learning	Scikit-learn, Regression Models, Predictive Modeling
Tools	Power BI, Tableau, Pandas, NumPy, Git, GitHub
Databases	MongoDB, MySQL

CERTIFICATIONS

- Data Science Masters – Physics Wallah
- ReactJS – Infosys Springboard

INTERPERSONAL SKILLS

Analytical Thinking | Problem Solving | Team Collaboration
